The reporting as a tool for transparency on commitments and results

✓ Intesa Sanpaolo boasts a long tradition in sustainability reporting:

Social Report

Sustainability Report

Consolidated Non-Financial Statement

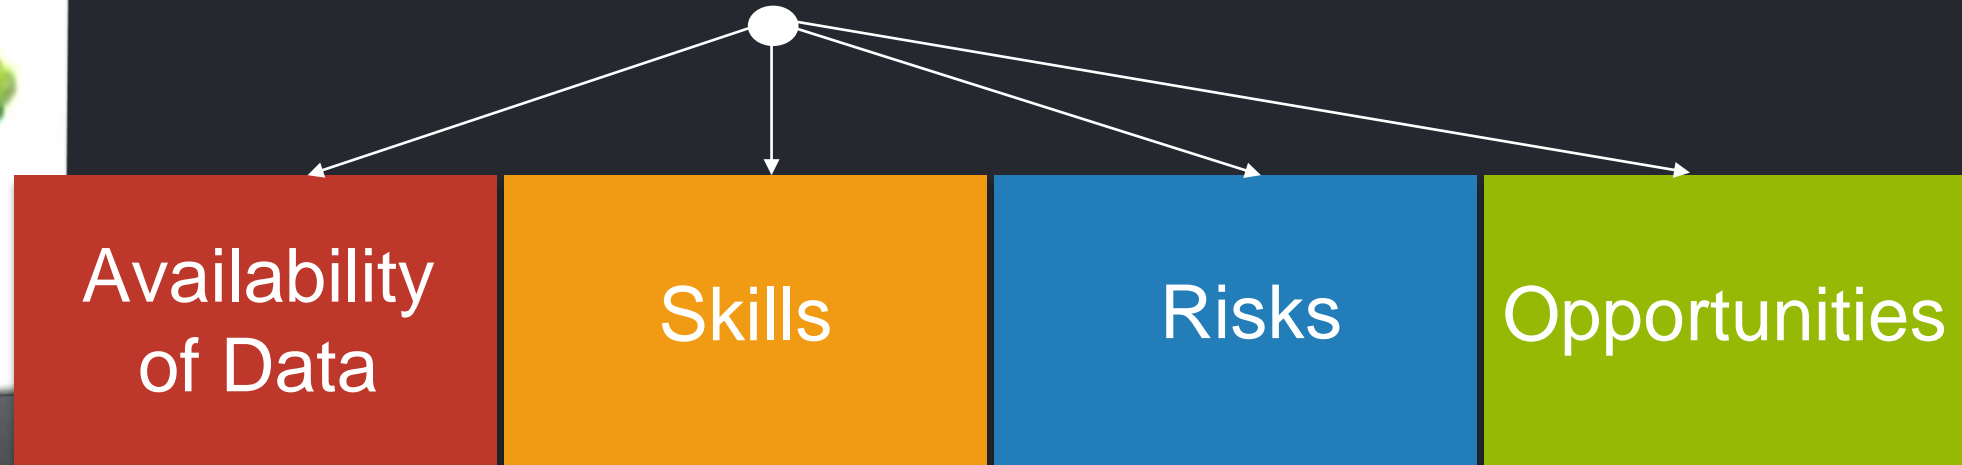

the information has been further enriched

- ✓ Task Force on Climate-related Financial Disclosures (TCFD)
- ✓ Principles for Responsible Banking (PRB)
- ✓ Green and Social Bond Report
- ✓ Pillar 3

Important sustainability challenges

Italian SMEs find themselves having to face important sustainability challenges:

The lack of data

The compactness and transparency can only and exclusively be achieved by using coherent, easily accessible and usable data in exposure assessments. This means that financial institutions will have to resort, where possible, to estimates and proxies to make up for the lack of directly detectable data

An aerial photograph of a paved road lined with trees, with fallen autumn leaves scattered on the ground. The text "THANK YOU" is overlaid in a large, white, sans-serif font. The background shows a perspective view of the road stretching into the distance, flanked by trees with some yellowing leaves, suggesting an autumn setting. The overall tone is serene and appreciative.

THANK
YOU
